HARLEN SUPPLIES

QUARRYING | MINING | CONSTRUCTION

Construction Breakers, Chisels & Moils

Harlen Supplies offers a rugged range of high-strength construction chisels and moils, designed for fast, clean fragmentation of rock, concrete, and more. Engineered for durability, they're compatible with leading pneumatic breakers — perfect for demolition, roadwork, and rock breaking. Featured in our lineup is the HR 117 Pneumatic Paving Breaker — a powerhouse of reliability and performance for demanding job sites.

BREAKERS, CHISELS & MOILS – BUILT TO BREAK THROUGH

Tough Tools for Demanding Jobs

- **Demolition Work:** Break through concrete, masonry, and other hard surfaces quickly and efficiently — ideal for site clearance and structural removal.
- **Rock Breaking:** Deliver fast fragmentation in mining, quarrying, and construction environments where power and precision are essential.
- **Paving & Roadworks:** Perfect for controlled chiselling and removal of old pavement layers using high-performance pneumatic breakers.

Key Benefits -

- **Exceptional Durability:** Forged from high-strength steel to handle the toughest operating conditions with ease.
- **High Impact Efficiency:** Designed for rapid, clean breaking of rock and concrete, reducing labour time and effort.
- **Continuous Use, Less Downtime:** Engineered for reliability and long service life with minimal maintenance.
- **Wide Compatibility:** Fully compatible with all standard pneumatic paving breakers for seamless integration.
- **Trusted Performance:** Consistently delivers under high-impact, heavy-duty applications on construction and mining sites.

Product Range:

- **HR 117 Pneumatic Paving Breaker:** A high-performance, heavy-duty breaker designed for demanding construction and roadwork applications.
- **Chisels:** Precision tools for shaping, cutting, and breaking through concrete, stone, and masonry.
- **Moils:** Pointed impact tools ideal for concentrated demolition tasks and targeted breaking.
- **Boulder Buster:** Specialised tool designed to split small to medium-sized boulders quickly and effectively.
