Kenella

DRILL STEEL, RODS & BITS

Kenella Carburized Drill Steel stands out as a premium nickel alloy steel renowned for its quality. Treated with a rigorous industry-specific carburizing process, penetrating the steel to a depth of 0.8mm to 1.2mm, boasts this steel unparalleled wear resistance.

Kenella Non-Carburized Drill Steel is crafted from the finest grade of steel, ensuring exceptional quality at a competitive price point. While non-carburized steel may exhibit signs of wear sooner compared to carburized options, its affordability makes it a practical choice for cost-conscious projects.

KENELLA FORGED COLLAR DRILL STEEL SPECIFICATIONS

- Fully Carburized or Non-Carburized Option
- Drill steel lengths available in **Carburized** Steel - 0.8m / 1.0m / 1.6m / 2.0m / 2.4m / 3.2m / 4.0m / 4.8m / 5.6m
- Drill Steel lengths available in **Non-Carburized** Steel - 0.8m / 1.0m / 1.6m / 2.0m / 2.4m / 3.2m / 4.0m
- 22mm Hex
- 108 Forge Collar
- 11° Taper Rod
- Markets:
 - Dimension Stone & Quarrying Industry
 - Construction & Civil Industry
 - Mining Industry

Taper Rod

Kenella's hand held drilling range of drill bits and drill steel perfectly complement each other and this combination guarantees optimal performance across diverse applications.
